## Road Tax Refund Solution

The FieldMate Off Road Distance Recording System is built to make RUC Tax Refunds a simple and straight forward process.

- Dash mount switch is used to record an off road trip.
- This system synchronizes to the Truck's Hubometer.
- Records date, time, time of trip, average speed, off road distance.
- System downloads into your office computer, instant secure reporting.
- Claim the RUC Refund using the information in the FieldMate Report.

**NO MONTHLY FEES ! 100% OF THE ROAD TAX REFUND IS YOURS**

- Report date.
- Truck ID.
- Number of off road trips
- Off road hubodometer rotations.
- On road hubodometer rotations.
- Wheel size entered into meter.
- Wheel size computed from the Hubometer on the truck
- RUC rebate distance
- Off road distance logs.
- Date, Time, Trip Time, Average speed, Off road distance.
- Total off road distance recorded in the last 1000km.

The FieldMate Road Tax Rebate System allows the driver to simply, securely and safely record off Road Travel without stopping the truck. Note, that during a RUC Rebate Audit the claimee may be asked to validate these trips.
